### **Goals and Guardrails**

Board Member Thompson introduced and facilitated the Board's Goals and Guardrails monitoring session to review progress on Guardrail 3: Partnering with Parents & Family Members – Every parent and guardian will be welcomed and encouraged to be partners in their child's school community. Board Member Thompson noted that the Board last monitored this Guardrail in December 2021, as Guardrails are monitored once per year.

Dr. Watlington invited Dr. Tonya Wolford, Chief of Evaluation, Research, and Accountability and Shavon Savage, Deputy Superintendent of Academic Services to lead a presentation on the District's current progress toward Guardrail 3: Partnering with Parents & Family Members.

The following staff reports were provided:

- Dr. Tonya Wolford, Chief of Evaluation, Research, and Accountability
- Shavon Savage, Deputy Superintendent of Academic Services
- Uri Monson, Deputy Superintendent of Operations

Deputy Savage provided an overview of Guardrail 3, including a review of Guardrail Indicator 3.1: School Relationship Rating, which looks at the percentage of schools with a high District-Wide Survey School Relationship Rating and Guardrail Indicator 3.2: School Advisory Council Meetings, which looks at the percentage of schools that have a School Advisory Council or SAC, that meets 3 or more times per year.

Dr. Wolford shared that the District had over 14,000 parents from District schools take the survey this past year noting that the parent engagement with the District-wide survey had seen a steady increase since the 2018-2019 school year. Dr. Wolford highlighted that the data provided during the presentation is based on the survey being administered during virtual learning in both 2019-20 and 2020-21, noting that the response rate decreased during this time, since schools were unable to support in-person survey

administration as they had in previous years. Overall, Dr. Wolford reported that the District is Off-Track with this indicator and shared that 18% of schools are meeting the high School Relationship score, which is below our annual target of 37.1% in 2021-22. Dr. Wolford shared that decreases in school relationship scores are reflective of the change in parent/guardian experience as their children went from virtual to in-person learning and also highlighted that the percentage of schools meeting the School Relationship score targets increased since last year, but is still below pre-pandemic levels.

For Indicator 3.2: related to the number of meetings held by Student Advisory Councils, or SACs, Dr. Wolford reported that the District remains On Track toward progress; noting that 89.4% of schools are meeting the indicator, which is about 3.5 percentage points below the annual target. Dr. Wolford highlighted that from last year to this year, the District has adjusted the required number of meetings needed to meet our target from 3 or more to 4 or more in order to align with the rules created by the Office of Family and Community Engagement. Due to this shift, there is a slight decline from last year, where the requirement to meet the target was for SACs to meet 3 times per year. Likewise, Dr. Wolford shared that there is an additional 7% of schools that had SACs that met 3 times in 2021-22, which would have meant an increase in the percentage of schools meeting the indicator since last year.

Deputy Savage also shared that the District will be considering how the District can better engage families and will be examining the community engagement mechanisms currently being used.

Following Dr. Watlington and team's presentation on each Guardrail, the Board engaged in a discussion and question and answer period. Board Member Andrews stated that the Board has accepted the Superintendent's report on the progress towards Guardrail 3: Partnering with Parents/Family Members. She summarized some of the key action steps going forward, which included the following: Investment in tools to improve the District's customer service approach and family and community engagement, tools will allow data to be centralized which will allow the District to analyze data to inform future supports, the strategic planning workgroup will be expanding on the recommendations that were provided by the transition team report and further consider parent/family engagement strategies, and the District will continue to engage in strategies to improve survey response rates. Lastly, Board Member Andrews shared that the Board should expect Board action will be required to adopt a software to track and improve the District's customer service.
